

“New Dentist Conference”

February 25, 2017

REGISTRATION FORM

INSTRUCTIONS

Complete this form and return to MSDA:
Maryland State Dental Association
8901 Herrmann Dr
Columbia, MD 21045
Fax: (410) 964-0583
Email: kayla@msda.com
Phone: 410-964-2880, ext 114

SCHEDULE

The schedule of the day is listed below. There will be 4 sessions, each 2 hours in length with breaks in between. Breakfast, Lunch and the Sessions will all take place at the MSDA Office.

LOCATION

MSDA Headquarters
8901 Herrmann Dr
Columbia, MD 21045

RECEPTION

Also included in the registration fee is admittance to the reception on Friday evening from 6:30-8:30 PM at the Columbia Alehouse. This is a great way to end the day, have some fun and network!

INTENDED AUDIENCE

This program has been designed by New Dentists, for New Dentists. The term “New Dentists” refers to dentists who have graduated dental school between 2006-2017. All sessions and programs have been designed to fit this group in their professional careers.

Registration for this event will be limited to this group of dentists, until February 15th. At that time, if spots remain, registration will be open to all dentists.

“New Dentist Conference”

COURSE DESCRIPTIONS

Saturday, February 25, 2017

8:30 AM—10:30 AM

Didactic Lasers

Dr. Mitch Lomke
2 CE Credits

Course Description Coming Soon!

10:45 AM—12:45 PM

**Dentist's Role in Sleep
Breathing Disorders**

Dr. Richard Rogers
2 CE Credits

What is happening to the teeth is an indication of what is happening to the body. The relationship between Snoring/Sleep Apnea, Clenching/Grinding Teeth and Gastroesophageal Reflux Disease (GERD), is now well established. Dr. Richard Rogers will detail how dentists can fill a vital role in detection, and treatment, of these major systemic illnesses.

1:45 PM—3:45 PM

**Front-End Treatment Plan-
ning: Analog/Digital Smile
Design of Prosthetic Reha-
bilitation**

Dr. Naif Sinada
2.0 CE Credits

This presentation will walk the General Practitioner through some predictable methods to digitally (and conventionally) design esthetic rehabilitations prior to ever prepping any teeth. By the end of the presentation, the practitioner will be able to 1. recognize when to use these principles, 2. be able to apply digital smile design principles on their patients immediately using both conventional/digital workflows, and 3. recognize some potential pitfalls, and apply clinical pearls from the presentation to their day-to-day fixed prosthodontic work.

4:00 PM—6:00 PM

**The Many Faces of Ora-
facial Pain**

Dr. Vanessa Benavent
2 CE Credits

Dr. Benavent will explore causes of non-odontogenic pain that many dentists will encounter across their practice lifetime, discussing tell-tale features and management recommendations in a general practice setting.
